

1

At the bottom-right of the *Windows taskbar*, right-click the **Volume** icon and select **Open Sound settings**.

2

Choose your desired microphone input.

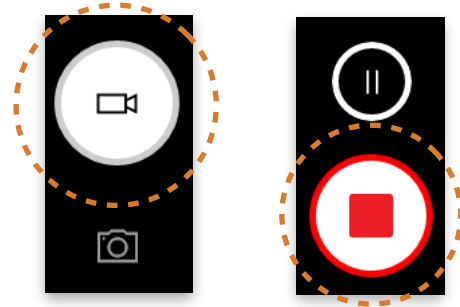

3

Open the **Camera** application and click the **Video** button on the right side of the application's window, located directly above the large **Photo** button.

4

Press the **Video** button once more to begin recording, and the red **Stop** button to end recording.

5

Recordings are saved to your **Pictures > Camera Roll** folder.
